To His Honour the Lieutenant-Governor in Council:

The undersigned has the honour to report that it is deemed advisable to revoke and cancel Order in Council No. 2080, approved on the 9th day of September, 1953, and to recommend that an Order be made as set out hereafter:

And that, under the "Strathcona Park Act," being chapter 49 of the Statutes of British Columbia, 1911, and amendments thereto, a report and recommendation of British Columbia Power Commission (hereinafter referred to as the "Commission"), dated the first day of April, 1953, has been received, recommending that it be authorized to raise the water-level of and to use for storage purposes that part of Buttle Lake lying within the limits of Strathcona Park:

And that the Commission is a licensee, under the "Water Act," on Campbell River, its licences being appurtenant to its undertaking known as "John Hart Development":

And that the Commission is the holder of Conditional Water Licence No. 20714, issued the fourth day of June, 1952 (hereinafter referred to as the "Storage Licence"), authorizing it to store water in Buttle Lake and to construct, maintain, and operate the works necessary for the proper storage and use of such water, and containing certain conditions with which the Commission is required to comply:

And that a Special Committee was appointed by the Legislature on the ninth day of February, 1953, to inquire into the validity of the proposals of the Commission with respect to the storing of water in Buttle Lake for power purposes and the objections thereto, and to recommend to the Legislature, with all convenient speed, whether or not, in the public interest, the Commission should be permitted to exercise its rights under the Storage Licence:

And that it is deemed necessary for the carrying-out of the said undertaking that such authority recommended by the Commission be granted:

And that it is deemed advisable to grant such authority:

And to recommend that, in accordance with the provisions of the "Strathcona Park Act," upon the recommendations contained in the said reports, and for the purpose of carrying out the said undertaking and improving the availability and supply of electrical power on Vancouver Island, the Commission be authorized:—

1. To exercise its rights under the Storage Licence, subject to the following additional provisions recommended by the said Special Committee, which provisions shall be deemed included in the conditions of the Storage Licence:—

- (a) The British Columbia Power Commission will be responsible for disposing of blow-downs of timber along the edges of the cleared area for a period of ten years following the clearing as directed by the Minister of Lands and Forests.
- (b) The Comptroller of Water Rights will consult with the Minister, and vice versa, in all matters affecting each other's interests.
- (c) The Minister will, within five years of completion of construction of the dam, designate camp-sites that the Power Commission will improve at their own expense, as provided in the licence and to the satisfaction of the Minister and the Comptroller of Water Rights.
- (d) The Power Commission will be responsible for clearing all drift logs and other floating debris from the lake at least once a year by June 30th in each year until all accumulations are disposed of to the satisfaction of the Comptroller of Water Rights and the Minister.
- (e) The access road to be built by the Commission or its contractors must be adequate to handle logging-trucks which will be used to remove the merchantable timber from the lake and the margin along Buttle Lake within the limits of Strathcona Park below the elevation of 755 feet as so measured. At completion of construction and logging, the ownership of the road shall revert to the Crown.
- (f) The access road, bridges, and culverts must be of an adequate and permanent character and built to Public Works Department standards.
- (g) There must be provided at the lake end of the road a public parking-space of a size and improved satisfactory to the Minister.
- (h) There must be provided by the Commission a boat-landing space above the dam which must be adequate for launching and pulling out small boats safely. It must be kept clear of logs and driftwood at all times to the satisfaction of the Comptroller and the Minister.

(i) The cleared area surrounding the dam, after construction and logging are completed, shall be prepared for landscaping, and shall be landscaped and planted by the Commission at their own expense as directed by the Minister.

(j) The area of construction around and at the dam-site shall be left in a clean and neat condition after construction and logging to the satisfaction of the Minister and the Comptroller. All rubbish, debris, abandoned buildings, machinery, and scrap shall be removed from the site to the satisfaction of the Minister.

(k) That clause 1 of the Conditions of Licence be amended to read as follows: "Remove all standing trees and shrubs from around Buttle Lake below elevation 755 feet (i.e., extreme high-water level) and grub or cut off stumps as close to the ground as possible in such areas and between such elevations as may be directed by the Comptroller and in accordance with recognized standards and to the satisfaction of the Minister."

(l) That clause 11 of the Conditions of Licence be amended by adding thereto the words "after consultation with competent consulting engineers."

And that the Commission be further authorized, in accordance with the provisions of the "Strathcona Park Act":—

2. To raise the water-level and to use for storage purposes that portion of Buttle Lake lying within Strathcona Park to the extent authorized by the Storage Licence.

3. To flood land abutting on that portion of Buttle Lake lying within Strathcona Park up to elevation 750 feet (as measured from the datum used by the Water Rights Branch of the Department of Lands in connection with Coast Project No. 143 as given in the report of F. W. Knewstubb).

4. Subject to first obtaining from the Minister of Lands and Forests a permit containing such conditions as the said Minister deems advisable to cut and remove, or cause to be cut and removed, any or all of the timber along the margin of Buttle Lake within the limits of Strathcona Park below the elevation of 755 feet as so measured, and to clear, or cause to be cleared, the said lands as required by the Storage Licence and the said provisions.

5. Except as provided hereafter in this paragraph, the Commission shall not have any right, title, or interest in or to any merchantable timber removed under (4) above, all of which shall be the property of the Crown, and all of which shall be sold by the Minister of Lands and Forests at public auction or by sealed tender, but the proceeds of any such sale shall be credited to the Power Commission, except any excess of receipts over and above the cost of logging, clearing, grubbing, disposal of debris, road-building, construction of loading out works, and the delivery of the said merchantable timber to loading out works near the outlet of Buttle Lake.

6. To do all such things as are necessary or advisable for the purpose aforesaid, and for the lawful exercise of the Commission's rights as licensee under the licences aforesaid.

And that the conditions of the Storage Licence, and the said provisions, be adopted as conditions upon which such authority be granted:

And that nothing herein contained shall be deemed to prohibit the Comptroller of Water Rights from amending the Storage Licence, and the conditions thereof (other than the conditions imposed under paragraph 1 hereof), pursuant to the provisions of the "Water Act," and specifically from amending the Storage Licence as follows:—

- (1) Clause g: That the works authorized to be constructed which now reads "concrete dam approximately 50 feet high and 410 feet long" to read "concrete or other type of storage dam as approved by the Comptroller at or near the outlet of Buttle Lake."

- (2) Clause 1 of the Conditions: By deleting the words "(extreme high water level)," and by substituting "as referred to in the Water Rights Branch 'datum' as established in 1924."
- (3) Clause 4 of the Conditions: By deleting the words "(i.e. extreme high water level)," and substituting therefor the words "as referred to in the Water Rights Branch 'datum' established in 1924."
- (4) Clause 7 of the Conditions: "the first day of June of each year" to read "the first day of July of each year."
- (5) Clause 8 of the Conditions: The months "June, July and August" to read "July, August and September."

And that Orders in Council Nos. 2080 and 802 of 1953 be rescinded:

And that this Order in Council shall also be deemed a regulation under the "Strathcona Park Act" and shall be published for four consecutive weeks in The British Columbia Gazette:

And that two certified copies of this Minute, if approved, be forwarded to British Columbia Power Commission, 780 Blanchard Street, Victoria, B.C.

Dated this 5th day of March, A.D. 1954.

R. E. SOMMERS,
Minister of Lands and Forests.

Approved this 5th day of March, A.D. 1954.

LEGISLATIVE ASSEMBLY

PRIVATE BILLS

EXCERPT FROM STANDING ORDERS RELATING TO PRIVATE BILLS

100. (1) All applications to the Legislative Assembly for Private Bills of any nature whatsoever shall require the publication of a notice clearly and distinctly specifying the nature and object of the application, and when the application refers to any proposed work, indicating sufficiently the location of the work, to be signed by or on behalf of the applicant.

(2) Such notice shall be published in The British Columbia Gazette and once a week in one leading daily newspaper freely circulating in all parts of the Province. The notice in such newspaper to appear on Wednesday of each week.

(3) When the proposed Bill is of such a nature that it may particularly affect one or more electoral districts, the notice shall furthermore be published once a week if possible in some newspaper in every electoral district affected, or if there be no newspaper published therein, then in a newspaper published in the electoral district nearest thereto.

(4) The publication of such notice shall in all cases be continued for a period of four weeks during the interval of time between the close of the next preceding Session and the consideration of the petition.

97. No petition for any Private Bill shall be received by the House after the first ten days of each Session, nor may any Private Bill be presented to the House after the first three weeks of each Session, nor may any report of any Standing or Select Committee upon a Private Bill be received after the first four weeks of each Session, and no motion for the suspension or modification of this Standing Order shall be entertained by the House until the same has been reported on by the Committee on Standing Orders, or after reference made thereof at a previous sitting of the House to the Standing Committees charged with the consideration of Private Bills, who shall report thereon to the House. And if this rule shall be suspended or modified as aforesaid, the promoters of any Private Bill which is presented after the time hereinbefore limited, or for which the petition has been received after the time hereinbefore limited, shall in either case pay double the fees required in respect of such Bill by this rule, unless the House shall order to the contrary.

98. (1) Any person seeking to obtain any Private Bill shall deposit with the Clerk of the House, eight clear days before the opening of the Session—

- (a) A printed copy of such Bill;
- (b) A copy of the petition to be presented to the House;

- (c) Copies of the notices published, with publication proved by a statutory declaration or affidavit to the satisfaction of the Clerk of the House.

(2) At the time of depositing the Bill and petition the applicant shall also pay to the Clerk of the House the sum of three hundred dollars.

(3) If a copy of the Bill, petition, and notices proved as aforesaid shall not have been so deposited in the hands of the Clerk of the House at least eight clear days before the opening of the Session or if the petition has not been presented to the House within the first ten days of the Session, the amount to be paid to the Clerk shall be six hundred dollars. If the Bill shall not pass second reading one-half of the fees shall be returned.

101. Every petition signed by an agent or attorney in fact shall be accompanied by the authority of such agent or attorney in fact, and the petition shall not be deemed to be filed with the Clerk until this is done.

102. Before any petition praying for leave to bring in a Private Bill for the erection of a toll-bridge is received by the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed by Standing Order 100, also at the same time and in the same manner give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a draw-bridge or not, and the dimensions of the same.

103. (1) All Private Bills for Acts of incorporation shall be so framed as to incorporate by reference to the clauses of the general Acts relating to the details to be provided for by such Bills: Special grounds shall be established for any proposed departure from this principle, or for the introduction of other provisions as to such details, and a note shall be appended to the Bill indicating the provisions thereof in which the general Act is proposed to be departed from. Bills which are not framed in accordance with this Standing Order shall be recast by the promoters and reprinted at their expense before any Committee passes upon the clauses.

(2) Every Bill for an Act of incorporation, where a form of model Bill has been adopted, shall be drawn in accordance with the model Bill (copies of model Bills may be obtained from the Clerk of the House). Any provisions contained in any such Bill which are not in accord with the model Bill shall be inserted between brackets or underlined, and shall be so printed.

(3) Any exceptional provisions that it may be proposed to insert in any Bill shall be clearly specified in the notice of application for same.

107. All Private Bills shall be prepared by the parties applying for the same, and printed in small-pica type, twenty-six ems by fifty ems, on good paper, in imperial octavo form, each page when folded measuring 10¾ inches by 7½ inches. There shall be a marginal number every fifth line of each page; the numbering of the lines is not to run on through the Bill, but the lines of each page are to be numbered separately. Three hundred copies of each Bill shall be deposited with the Clerk of the House immediately before the first reading. If amendments are made to any Bill during its progress before the Committee on Private Bills, or through the House, such Bill shall be reprinted by the promoters thereof.

In the case of Bills to incorporate companies, in addition to the fee of \$300 mentioned in Rule 98, fees calculated on the capital of the company are payable at the same time. Further particulars can be had on application to the undersigned.

All cheques in payment of fees must be certified.

Dated January 5th, 1949.

E. K. DEBECK,
Clerk, Legislative Assembly.

"TOWN PLANNING ACT"

PURSUANT to the provisions of section 61 of the "Town Planning Act," being chapter 339 of the "Revised Statutes of British Columbia, 1948," as amended, His Honour the Lieutenant-Governor in Council has been pleased to make the following regulations:—

WOODHAVEN DISTRICT REGULATED AREA REGULATIONS

1. These regulations shall apply to the area situate in New Westminster Land District and being the subdivision of parts of Sections 23, 24, and 25 of fractional township lying to the west of Township 39, west of the Coast meridian, as shown by Registered Plans Nos. 1756 and 3014, deposited in the Land Registry Office at New Westminster, B.C.

2. The area defined in Regulation 1 is hereinafter called the "area" and shall be known as the "Woodhaven District Regulated Area."

3. There shall be an Inspector for the area appointed by the Minister of Municipal Affairs.

4. The Inspector shall enforce the provisions of these regulations.

5. Nothing in these regulations shall require the removal, alteration, or abandonment of, nor prevent continuance of the use or occupancy of, a building existing in the area before the date of these regulations, unless in the opinion of the Inspector the building or its use constitutes a hazard to the safety and health of the public, or to the owners of adjacent property, or in the opinion of the Medical Health Officer the building or its use constitutes a menace to public health.

6. The approving officer as defined in the "Land Registry Act" shall not approve of a plan of subdivision that does not conform to the requirements of Regulations 7 and 8 hereof without the written consent of the Inspector.

7. No land shall be subdivided into lots or parcels for building purposes unless:—

- (a) A method of sewage-disposal satisfactory to the Medical Health Officer is possible for each lot:
 - (b) Each lot in a residential district is at least fifteen thousand square feet in area and, in addition, is at least one hundred feet in width and at least one hundred and fifty feet in depth, or in a commercial or industrial district is at least thirty feet in width and at least one hundred feet in depth:
 - (c) Each lot or parcel resulting from the subdivision abuts on a public highway along one full side of said lot:
 - (d) The approving officer is satisfied that the subdivision design is suited to the configuration of the land in and about the area which it is proposed to subdivide, and to the road plan of adjoining subdivisions:
 - (e) The land is not swamp land and is not subject to intermittent or periodic flooding.
8. (1) Except as provided in subsection (2), no person shall commence the erection of, or an alteration or addition to, or a repair affecting the structural stability of, a building or structure, or the installation or alteration of or addition to plumbing in any building, or the installation or construction of a septic tank or sewage-disposal system, in the area without first obtaining a permit in respect thereof from the Inspector.
- (2) Where work, commenced before the date of these regulations, on a building which does not conform to these regulations, or which is intended for a non-conforming use, has been discontinued, such work may be resumed within six months of such date. Sufficient progress in the work shall then be made to the satisfaction of the Inspector, otherwise any further construction or use shall be in conformity with these regulations.
9. No person shall move a building or structure within or to any part of the area without first obtaining a permit in respect thereof from the Inspector.
10. (1) Before considering an application for a permit, the Inspector shall require the applicant to furnish evidence of compliance with such plans, specifications, and other information as he thinks proper.
- (2) The application for a permit, together with such plans and other information as the Inspector requires, shall be examined by him, and if it appears to him that such plans and other information are in conformity with the requirements of these regulations and all other laws applicable thereto, the Inspector shall issue the building permit upon receipt of the required permit fee as specified in Schedule B hereof, and not otherwise, except as provided in Regulation 34 hereof.
11. (1) Any building intended for animal or human habitation or as a place where people may congregate, such as a community hall, dance-hall, or similar use, or as a food-catering establishment, shall have provision made for sewage-disposal satisfactory to the Medical Health Officer, and the water-supply shall be satisfactory to the Medical Health Officer.
- (2) There shall not be hereafter erected more than one dwelling on each fifteen hundred square feet of land, and there shall be at least one hundred feet of frontage for each such dwelling, except where subdivision into parcels of less area has been made prior to the date of these regulations or as provided for in Regulation 7 hereof; provided, however, that this shall apply to single- and two-family dwellings only and not to living-quarters forming part of a store or similar commercial use or to multiple dwellings. Where two dwellings or more are erected on a parcel of ground exceeding thirty thousand square feet in area, they shall be located as if each were on a separate lot conforming to the requirement of these regulations.
- (3) Structural details shall comply with the National Building Code of the National Research Council of Canada, except as otherwise required herein. Plumbing installations shall comply with sections K.1.1. to K.6.4.2., inclusive, of Appendix "K" of said National Building Code, and sewage-disposal systems and septic tanks shall comply with the requirements of Schedule A hereof.
- (4) Any building intended for human habitation as a single-family dwelling shall have a floor area of not less than six hundred square feet, and any building intended for human habitation as a two-family dwelling shall have a floor area of not less than eleven hundred square feet; living-quarters above stores or in multiple dwellings shall have a floor area of not less than five hundred square feet per housekeeping unit.
- (5) The window area in any room intended for use for human habitation shall be at least one-tenth the floor area.
- (6) Where adequate sewage-disposal and sufficient water facilities are available, every building intended to be used for human habitation shall be provided with at least one sink and one toilet and one bathtub or shower properly connected to the approved sewage-disposal system.
- (7) Where land is occupied or is to be occupied by more than three dwellings per acre or by more than three families per acre, if a sufficient water-supply is available, flush-toilets draining into septic tanks or otherwise satisfactory to the medical Health Officer shall be provided.
- (8) Where privies are permitted, they shall conform to the requirements of section 16 (f) of the Regulations for the Sanitary Control of Industrial Camps.
- (9) No open-joint tiling in a sewage-disposal field, and no building, other than accessory buildings which the Medical Health Officer considers not likely to cause pollution of water, shall be erected within a less distance than fifty feet from the normal high-water line of any lake, the waters of which are used for swimming or drinking by human beings, nor from any stream; provided that the prohibition in case of any said stream may be waived at the discretion of the Medical Health Officer.
- (10) All buildings other than small accessory buildings shall be supported on walls of masonry or reinforced concrete conforming to the provisions of clauses (b) and (c) of Article 3.7.7.2. of the National Building Code.
- (11) If the parcel of land on which it is proposed to erect the building has been registered subsequent to the date of these regulations, it shall have resulted from a subdivision complying with the requirements of these regulations, notwithstanding the provisions of section 105 of the "Land Registry Act."
12. (1) Any installation, erection, or use of electrical equipment shall be subject to the regulations of the "Electrical Energy Inspection Act."
- (2) All structures shall conform with the provisions of the "Fire Marshal Act" and with any regulations pursuant thereto.
- (3) No building shall be used for a purpose other than that for which a permit was issued, except with the written permission of the Inspector.
13. (1) The Inspector may withhold a permit for, or order the removal of, any structure when he deems it necessary in the interests of health or safety; the Inspector, in his order for removal, shall name a time by which such structure shall be removed and give the reasons for requiring said removal.
- (2) The Inspector shall not issue a permit for any work on a building or structure constructed or to be constructed on or moved on to a parcel of land smaller than is required by these regulations unless said parcel was on record before the date of these regulations or is part of a subdivision plan regularly approved by the approving officer.
14. If a permittee has not commenced to exercise his rights under the permit within six months from date of issue, the permit shall expire.
15. Where a person obtains a permit, he shall carry out the construction or moving in accordance with the terms on which the permit is based, and not otherwise, and shall complete exterior finish according to an approved plan within eighteen months of the issuance of the building permit.
16. The Inspector shall have power to enter upon and inspect every building in the course of construction or removal in the area.
17. If any person is erecting or has erected a building or structure, or is installing or has installed plumbing or a sewage-disposal system, or is doing

or has done any work for which a permit is required, without a permit as required herein, or that is not in accordance with the plans and specifications on which the permit is based, the Inspector may:—

- (a) Order that person to cease work; or
- (b) Order that person to conform to the plans and specifications; or
- (c) Order that person to remove the work, building, or installations within a time-limit to be stated in the order.

18. Where the Inspector finds a building or structure constructed before the date of these regulations to be:—

- (a) In a dangerous condition, he may instruct the owner to make such repairs or reconstruction as he considers necessary to put said building into a safe condition. If, in his opinion, the existing building cannot be satisfactorily repaired, or if the owner refuses or neglects to carry out the repairs or reconstruction ordered by the Inspector, the Inspector may order the building demolished by a date specified in the order;
- (b) Not in conformity with the requirements specified in Regulation 11 hereof for new buildings, he may, subject to the approval of the Board of Appeal, order the owner to make such alterations or additions or do anything that may be necessary to bring said building into conformity with these regulations by a date to be specified in the order.

19. Every person to whom an order is directed pursuant to these regulations shall obey the order.

20. The area is divided into districts of the following classes:—

- (a) "Residential districts," being the districts coloured yellow within the boundaries of the area bordered red on a plan bearing the words "This is the plan referred to in Regulation 20, clause (a), of the regulations applying to the Woodhaven District Regulated Area" and signed by the Minister of Municipal Affairs and deposited in the Department of Municipal Affairs;
- (b) "Commercial districts," being the districts coloured purple on said plan.

21. In a residential district:—

(1) No person shall use land for purposes other than:—

- (a) Residences, churches, schools, community halls, non-commercial greenhouses, and other uses deemed by the Board of Appeal to come within the meaning of "customary residential uses";
- (b) Agricultural, horticultural, and related uses; provided that whenever any such use creates, or in his opinion is likely to create, a public nuisance, the Inspector may order its discontinuance;
- (c) Accessory buildings located in a rear yard, and uses customarily incident to the above uses; provided that a building to shelter domestic animals shall be situated not less than one hundred feet from any well, spring, or creek, and as far from a dwelling on the same lot and the nearest dwelling on any adjacent lot as the shape and size of the lot on which it is situated permits.

(2) The keeping of animals or fowl for breeding or commercial purposes where such use exists at the date of the coming into effect of these regulations may be continued as a non-conforming use and shall be subject to Regulation 26 hereof, but no similar use shall be established hereafter.

(3) No person shall erect a building on a site except in compliance with the following conditions:—

- (a) The height of the building shall not exceed thirty-five feet or two and a half stories;
- (b) A building to be used for human habitation shall have a floor area of at least six hundred square feet;
- (c) No building-site shall be occupied by buildings to more than thirty-three per cent of its area;

(d) A rear yard shall be provided of not less than twenty-five per cent of the lot-depth, and it shall in no case be less than twenty-five feet in depth;

(e) Two side yards shall be provided, each of which shall be not less in width than ten per cent of the width of the site, or five feet, whichever is greater; provided that no side yard need exceed ten feet in width; and further provided that where a building is not served by a side or rear lane, one side yard shall be at least ten feet in width and unobstructed and open to the sky;

(f) On a corner lot, at the rear of which are lots fronting on the flanking street, the yard paralleling and adjacent to the flanking street shall extend the full depth of the lot and shall be not less than twenty-five feet wide, unless otherwise permitted by the Board of Appeal and with the consent of the Minister of Public Works, in which case it shall be not less than twelve and a half feet wide.

22. In a commercial district:—

(1) Land may be used for the purposes permitted in residential districts, and which conform to the height, yard, and area requirements of Regulation 21 or for retail stores and similar commercial uses, offices, and service-stations, but not for industrial establishments employing more than six permanent employees, or fruit processing or packing or similar plants, or other uses not deemed by the Board of Appeal to come within the meaning of the term "commercial uses."

(2) Where a building hereafter is erected or converted for retail or other commercial or business purposes where there is no public lane giving access to the rear of the building, provision shall be made for such access by means of a yard so that loading and unloading operations shall be conducted off the public highway.

(3) The height of any building hereafter erected shall be not more than thirty-five feet.

(4) For the purpose of Regulation 24 hereof, in the case of a building to be erected on a corner lot, other than one permitted in Regulation 21 hereof, each wall facing a street shall be deemed a main front wall.

23. The height limitations prescribed herein shall not apply to windmills, silos, grain-elevators, and similar structures, nor shall they apply to chimneys, towers, and spires, occupying less than seven per cent of the site area.

24. (1) No person shall erect a building on a lot so that any main wall, other than projecting steps, will be nearer a highway than twenty-five feet, unless approved by the Board of Appeal and with the consent of the Minister of Public Works.

(2) Side yards shall be unoccupied and unobstructed by buildings.

25. (1) Soil or gravel shall not be removed from, or garbage deposited on, any lands in the area without the consent of the Board of Appeal, which may state the terms and conditions on which the consent is granted.

(2) Where permission to conduct uses referred to in this regulation, or where an appeal under the provisions of Regulation 28 has been granted by the Board of Appeal, the applicant shall commence to exercise the rights so granted within six calendar months of the date of the granting thereof or such rights shall expire.

26. (1) Any use of land or buildings contrary to the provisions of Regulations 21 to 25, inclusive, but which existed prior to the coming into effect of these regulations, may be continued, unless in the opinion of the Medical Health Officer and the Inspector such continuance is prejudicial to public health or interest.

(2) No non-conforming use which has been discontinued for thirty days shall be renewed.

(3) The lawful use of a building existing at the time of the coming into effect of these regulations, although such use does not conform to the provisions of Regulations 21 to 25, inclusive, may be extended throughout the building, but no structural alterations shall be made nor shall the non-conforming use be carried beyond the limits of the existing building.

27. If the Inspector is notified by the Medical Health Officer having jurisdiction in the area that any building or structure is dangerous to health, the Inspector shall so notify the owner of the land, and may either:—

- (a) Require the owner to put the building or structure in a safe condition within the period of time specified in the order; or
- (b) Require the owner or occupant of the building or structure to vacate it within thirty days from the date of the order, and he may also order the owner to demolish the building or structure within the period of time specified in the order.

28. (1) Except in the case of subdivision requirements in respect of which provision for appeal is made in the "Land Registry Act," any person who considers that any refusal to grant him a permit, or any order issued to him under these regulations, will cause him undue hardship shall have a right of appeal by way of hearing before the Board of Appeal.

(2) Any person exercising the right of appeal shall file with the Secretary of the Board of Appeal within ten days of the giving of any decision under the foregoing regulations a written notice of appeal therefrom, which shall state clearly the grounds upon which the appeal is made. The appellant shall therein give an address to which all notices may be mailed.

(3) The Secretary shall notify the Chairman of the Board of Appeal of said notice of appeal; the said Chairman shall set a date for the hearing of the appeal, which shall be within ten days of the filing of the notice of appeal. Four days' notice of the said hearing shall be mailed by the Secretary, by registered mail, to the appellant, posted to the address given in said notice of appeal, and to such other persons as may be designated by said Chairman.

29. (1) The Board of Appeal shall consist of three members, each of whom shall be a resident registered land-owner in the area.

(2) The members shall be appointed by the Minister of Municipal Affairs, and in the first instance one member shall be appointed to hold office for one year, one for two years, and one for three years, and all subsequent appointments shall be for three years.

(3) Any member whose term has expired may be reappointed.

(4) The Board shall be presided over by a chairman, to be chosen annually from among themselves by the members thereof.

(5) Two members shall constitute a quorum.

(6) In the event of the death, resignation, or removal from office of any member of the Board, the vacancy thereby created shall be filled as soon as possible after the death, resignation, or removal, and until the appointment of a successor to such member, the remaining members shall constitute the Board.

30. The Board of Appeal may hear witnesses and take any other steps it may consider necessary to ensure a proper consideration.

31. The Chairman of the Board of Appeal shall have authority to administer oaths to the witnesses on the appeal.

32. In disposing of appeals the Board of Appeal may make such relaxations of these regulations, or of any order issued pursuant to these regulations, as the Board of Appeal considers necessary to ensure substantial justice, except that a change of classification of any district or part thereof or the permitting of a new use may be made only by the Minister of Municipal Affairs on the recommendation of the Board of Appeal.

33. The decision in writing of a majority of the members of the Board of Appeal attending a regularly called meeting shall be the decision of the Board, and the Board shall not be required to re-adjudicate the same appeal on the same set of facts.

34. Where the decision of the Board of Appeal relaxes any of the regulations herein, it shall be competent for the Inspector to issue a permit or an order conforming to said decision.

35. The Inspector shall act as Secretary to the Board of Appeal and shall keep a record of proceedings of all meetings of said Board. He shall forward a copy of the decision of the Board in respect of any appeal to the appellant concerned.

36. Every person who violates any provision of these regulations shall be guilty of an offence and shall be liable, on summary conviction, to a penalty not exceeding one hundred dollars for each ten days or part thereof such violation continues.

SCHEDULE A

1. *General.*—Whenever a street or common sewer is not available, any sanitary house sewer shall be connected to a private sewage-disposal system. Such system shall consist of a septic tank with a tile disposal-field or other approved means of disposal.

2. *Location.*—Any septic or other sewage-disposal tank shall be located outside and be separated from any wall of a dwelling-house. Any disposal-field or area shall be located as far as practicable from any dwelling, and in no case shall disposal-tiles be nearer at any point than ten feet to any dwelling. No sewage-disposal system shall be so located that it is liable to contaminate any existing domestic water-supply, nor shall it be located under any roadway or traffic-way.

3. *Materials.*—The walls and floors of any septic tank or other sewage-disposal tank shall be of substantial water-tight construction.

4. *Capacity.*—No septic tank or other sewage-disposal tank shall have a capacity, below the invert of the outlet-pipe, of less than four hundred gallons, and shall be constructed according to plans and specifications to be seen in or obtained from the office of the Inspector, or shall be constructed according to other specifications submitted to and approved by the Inspector.

Adequate provision shall be made for any condition that may result in a flow of sewage greater than four hundred gallons per day in any dwelling or fifteen gallons per person per day in any school or similar establishment. When computations or assumptions are made as to the expected flow of sewage, the septic tank shall be sufficiently large to allow a detention period of twenty-four hours, and shall contain in addition a reasonable space for sludge storage.

5. *Design.*—The digestion or treatment and dosing chambers of any septic tank or other sewage-disposal tank shall be securely covered with concrete, metal, or wood, and shall be provided with adequate means of access.

The depth of the digestion-chamber shall not be less than forty-two inches below the level of the liquid outflow. A space of at least twelve inches shall be provided above the level of liquid outflow for scum formation and gas escape.

The inlet and outlet pipes shall be of a size not less than that of the sewer served, and shall be so provided with baffle-plates or with inverted sanitary tee-fittings as to prevent any excess turbulence or disturbance of the scum. The outlet baffle or tee-fitting shall extend not less than six inches above and fifteen inches below the water-line. The inlet tee-fitting or baffle shall extend several inches above and ten to fifteen inches below the water-level in the tank. The level of the outlet shall be two to four inches below that of the inlet.

6. *Dosing-chambers.*—Any septic tank or other sewage-disposal tank of more than four hundred gallons capacity and discharging into a sub-surface tile disposal-field or sand filter shall be provided with a dosing-chamber of liquid capacity of at least one-tenth that of the treatment-tank.

7. *Dosing-siphons.*—Dosing-chambers shall be provided with siphons or other discharging devices, and shall be automatic, unless other means are provided for their proper operation. Such siphons or other discharging devices shall be made of corrosion-resistant material.

8. *Storm Water.*—Surface or storm water shall not be drained into any private sanitary sewage-disposal system.

9. *Capacity of Tile Disposal-field.*—In assessing the capacity of any private sub-surface irrigation-field for sewage, consideration shall be given to the character of the soil and the capacity of the dosing-chamber.

The length of open-joint tiling shall be not less than sixty lineal feet per dwelling in porous soils, and shall be increased in proportion to the number of bedrooms in excess of two and not more than five at the minimum rate of eighteen lineal feet per bedroom.

For schools and similar establishments whose daily requirements are of limited duration, the length of open-joint tiling shall be not less than two hundred and sixty lineal feet.

The volume of the disposal tile and feeder-pipes shall in no case be less than one hundred and twenty per cent of the discharge volume of the dosing-chamber.

10. *Tile Disposal field in Impervious Soil.*—No sub-surface sewage irrigation field shall be constructed in clay or other heavy or impervious soil unless porous filtration media and adequate drainage are provided by removing such impervious soil and replacing it with porous filtering material, such as coarse sand, gravel, cinders, or broken stone, to a

depth below the bottom of the disposal-tile of not less than eighteen inches and preferably not less than twenty-four inches.

11. *Size of Open-joint Tile and Method of Laying.*—Ordinary field drainage-tile of a size not less than four inches shall be used. They shall be laid on a firm base of broken stone, gravel, or on tile supports, and shall have a depth of cover not less than twelve inches nor greater than twenty-four inches. Open joints of one-eighth to three-eighths inch shall be left between tiles, and the upper half of such joints shall be covered by tarred paper, broken tile, or other approved protection. The tile-trench shall be back-filled with coarse sand, gravel, cinders, or broken stone of particle size not greater than one-half inch in any dimension, to a depth of six inches over the top and around the sides of the tile wherever the soil is less porous than coarse sand or gravel. Tiling shall not be laid under any roadway or traffic-way.

12. *Grade of Tiling.*—The open-joint tiling shall be laid at a small uniform down grade not exceeding two inches per one hundred feet.

13. *Lateral Branches of Tiling.*—Lateral branches of open-joint tiling shall be not less than three feet apart, and shall be connected to the liquid-effluent pipe or to a header by sewer-pipe branch fittings. Header-pipes shall be of a quality equal to that required for house sewer-pipes.
